EXPERIENCE

Freelance Frontend Developer (on retainer)

May 2026 - June 2026

- Built a scalable multi-tenant analytics dashboard with lazy-loaded modules and Supabase RLS, optimizing load performance and workspace isolation.
- Engineered WCAG 2.1-compliant data visualizations with ARIA live regions and keyboard navigation for accessible, inclusive UX.
- Integrated Claude API with streamed responses and optimistic UI for real-time AI insights with near-zero perceived latency.

Tech: React, TypeScript, Tailwind CSS, Supabase, Anthropic Claude API, Recharts, Vercel

Module: AI Insight Panel, Multi-Tenant Workspace, Data Upload, Report Generation

Freelance Software System Developer (on retainer)

January 2026 - May 2026

- Trained and deployed a YOLOv8m computer vision model for rice pest and disease detection, achieving 95.7% mAP@0.5 across 16 classes.
- Built a React dashboard with real-time bounding box overlays and geospatial alarm logging for location-based field monitoring.
- Engineered a Laravel REST API backend with role-based access control, serving detection data across Farmer, Researcher, and Authority roles.

Tech: WebStorm IDE, PhpStorm IDE, React.js, Laravel, Tailwind CSS, Python, YOLOv8m

Module: Computer Vision & Geospatial Monitoring, Agricultural Monitoring System

Part-Time Frontend Developer (on retainer)

August 2025 - March 2026

- Built a responsive doctor directory and AI healthcare assistant UI, enabling users to discover medical professionals and book appointments seamlessly.
- Developed appointment and calendar management features with real-time availability syncing, improving scheduling efficiency for doctors and patients.
- Designed and implemented accessible, conversion-optimized interfaces using Tailwind CSS, Photoshop, and Illustrator for a polished, production-ready UX.

Tech: React, TypeScript, Tailwind CSS, REST API, WebStorm IDE, Photoshop, Illustrator

Module: Doctor Directory, AI Assistant Interface, Appointment & Calendar Management

SKILLS & INTERESTS

Technical Skills: Frontend Development, UI/UX Design, PHP Laravel, AWS, REST API, React, WordPress (Elementor), PostgreSQL, Figma, Swift, iOS/macOS App Design, Visual/Brand Design, HTML/CSS, Android/Java, C#/.NET, JavaScript/jQuery, SQL/ASP.NET,

Soft Skills: Innovator, Research, Problem Solving, Troubleshooting, Attention to Detail, Organizational Skills, Documentation, Requirements Gathering, AI-Assisted Problem Solving, Aesthetic Sensibility, User Empathy, Work Ethic, Consistency & Design Systems Thinking

Interests: Basketball, Tennis, Jogging, Playing, Travel

EDUCATION

Bachelor of Science in Computer Science

Present

University of Negros Occidental - Recoletos

Information Technology in Mobile App and Web Development

2024 - 2026

STI West Negros University
